

Republic of the Philippines COMMISSION ON AUDIT Commonwealth Ave., Quezon City

ANNUAL AUDIT REPORT

on the

LBP LEASING CORPORATION

(A wholly-owned subsidiary of Land Bank of the Philippines)

For the year ended December 31, 2012

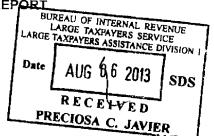

Republic of the Philippines COMMISSION ON AUDIT

Commonwealth Avenue, Diliman, Quezon City

CORPORATE GOVERNMENT SECTOR CLUSTER 1- BANKING AND CREDIT

INDEPENDENT AUDITOR'S REPORT

The Board of Directors
LBP Leasing Corporation
15th Floor, SSHG Law Center
105 Paseo de Roxas St.,
Legaspi Village, Makati City

We have audited the accompanying financial statements of LBP Leasing Corporation (a wholly-owned subsidiary of Land Bank of the Philippines), which comprise the financial position as at December 31, 2012 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

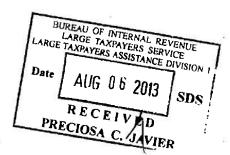

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of **LBP** Leasing Corporation as at December 31, 2012, and its financial performance and its cash flows for the year then ended in accordance with Philippine Financial Reporting Standards.

COMMISSION ON AUDIT

NOTES TO FINANCIAL STATEMENTS

(All amounts in thousands of pesos)

CORPORATE INFORMATION 1.

1.1 Incorporation and Operations

PRECIOSA C. JAVIER The LBP Leasing Corporation (LBP Lease/ LLC or "the Corporation") was registered the Securities and Exchange Commission on March 17, 1983 under SEC Registration No. 111115. It was granted by the SEC a license to operate as a finance company on March 18, 1983. The principal activities of LBP Lease are as follows:

- To engage in direct leasing or financial leasing and to arrange or a. underwrite and administer leases of all kinds of equipment, machines, vehicles, facilities, appliances and all types of personal and real property;
- b. To engage in the business of financing merchandise particularly but not limited to appliance, automobile, and truck retail sales, agricultural machinery and equipment and to engage in the business of commercial, agricultural and industrial financing, factoring and/or leasing, in all other various forms, within and without the Republic of the Philippines;
- C. To extend credit facilities for and otherwise assist in the establishment, operation, development, expansion and/or reorganization of industrial, commercial, agricultural and other productive or profitable enterprises; and
- d. To make loans with or without such security, as the Board of Directors may think fit within the limits allowed by law.

The Corporation is a wholly owned subsidiary of Land Bank of the Philippines (LBP). LBP Lease's place of business is at 15th Floor SyCip Law Center, No. 105 Paseo De Roxas, Makati City.

1.2 Approval of Financial Statements

The financial statements of LBP Leasing Corporation for the year ended December 31, 2012 were authorized for issue in accordance with a resolution of the Board of Directors on February 21, 2013 under Board Resolution No. 13-024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 **Basis of Preparation**

Statement of Compliance with Philippine Financial Reporting Standards a.

The financial statements of the Corporation have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations Committee (PIC)/Standard Interpretations Committee (SIC)/International Financial Reporting Interpretations Committee (IFRIC) interpretations which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

These financial statements are the Corporation's separate financial statements and the exemptions from consolidation of subsidiaries' financial statements have been used. LBP issues consolidated financial statements that also comply with PFRS and which are available for public use in the Philippines.

b. Basis of Measurement

The financial statements have been prepared on a historical cost basis.

c. Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1 (Revised 2007), *Presentation of Financial Statements*. The Corporation presents all items of income and expenses in a single statement of comprehensive income.

The Corporation presents its statement of financial position broadly in order of liquidity. Analysis regarding recoveries (asset) or settlement (liability) within 12 months after the statement of financial position date (current) and more than 12 months after the statement of financial position date (non-current) is presented in Note 20.

d. Functional and Presentation Currency

These financial statements are presented in Philippine peso, the Corporation's functional and presentation currency, and all values are rounded to the nearest thousand (P'000) except when otherwise indicated.

Items included in the financial statements of the Corporation are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the entity operates.

2.2 Adoption of New Interpretations, Revisions and Amendments to PFRS

a. Effective in 2012 that are relevant to the Corporation

PAS 12, Income Taxes - Deferred Taxes: Recovery of Underlying Assets (Amendment) - The amendment clarified the determination of deferred tax on investment property measured using the fair value model. The amendment property measured using the fair value model in PAS 40, Investment Property, will be recovered through sale and, accordingly, requires that any related deferred tax should be measured on a "sale" basis. The presumption is rebutted if the investment property is depreciable and it is held within a business model whose objective is to consume substantially all of economic benefits in the investment property over time (use basis) rather than through sale. Furthermore, the amendment introduces the requirement that deferred tax on non-depreciable assets measured using the revaluation model in PAS 16, Property Plant and

Equipment, always be measured on a sale basis of the asset. The amendments are effective for periods beginning on or after January 1, 2012. The amendment has no significant impact on the Corporation's financial statements because the Corporation's investment property which is measured at fair value are taxable at the same rate regardless if these assets are sold or used in operations and the Corporation has no non-depreciable property and equipment.

PFRS 7, Financial Instruments: Disclosures – Transfer of Financial Assets (Amendments) – The amendments require additional disclosures about financial assets that have been transferred but not derecognized to enhance the understanding of the relationship between those assets that have not been derecognized and their associated liabilities. In addition, the amendments require disclosures about the entity's continuing involvement in derecognized assets to enable the users of the financial statements to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets. The Corporation did not transfer any financial asset involving this type of arrangement; hence, the amendment did not result in any significant change in the Corporation's disclosures in its financial statements.

b. Standards issued but not yet effective

The standards and interpretations that are effective, but not yet effective, up to the date of issuance of the Corporation's financial statements are disclosed below. The Corporation intends to adopt these standards, if applicable, when they become effective.

PAS 1, Presentation of Items of Other Comprehensive Income – Amendments to PAS 1.

The amendments to PAS 1 change the grouping of items presented in other comprehensive income (OCI). Items that could be reclassified to profit or loss at a future point in time would be presented separately from items that will never be reclassified. The amendments affect presentation only and have no impact on the Corporation's financial position or performance. The amendment become effective for annual periods beginning on or after 1 July 2012, and will therefore be applied in the Corporation's annual report after becoming effective.

PAS 19, Employee Benefits (Amendment).

These range from fundamental changes such as removing corridor mechanism and the concept of expected returns on plan assets to simple clarifications and rewording. The revised standard also requires new disclosures such as, among others, a sensitivity analysis for each significant actuarial assumption, information on asset-liability matching strategies, duration of the defined benefit obligation, and disaggregation of plan assets by nature and risk. The amendment becomes effective for annual periods beginning on or after 1 January 2013. Once effective, the Corporation has to apply the amendments retroactively to the earliest period presented.

PAS 32, Financial Instruments - Offsetting Financial Assets and Financial Liabilities (Amendments).

These amendments clarify the meaning of "currently has a legal enforceable right to set-off". The amendments also clarify the application of the PAS 32 offsetting criteria to settlement systems which apply to gross settlement mechanisms that are not simultaneous. While the amendment is expected not to have any impact on the net assets of the Corporation, any changes in the offsetting is expected to impact leverage ratios and regulatory capital requirements. The amendments to PAS 32 are to be retrospectively applied for annual periods beginning on or after January 1, 2014. The Corporation is currently assessing impact of amendments to PAS 32.

PFRS 7, Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities (Amendments).

These amendments require an entity to disclose information about rights to set-off and related arrangements (such as collateral agreements). The new disclosures are required for all recognized financial instruments that are set off in accordance with PAS 32. These disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with PAS 32. The amendments require entities to disclose, in a tabular format unless another format is more appropriate, the following minimum quantitative information. This is presented separately for financial assets and financial liabilities recognized at the end of the reporting period:

- a. The gross amounts of those recognized financial assets and recognized financial liabilities;
- b. The amounts that are set off in accordance with the criteria in PAS 32 when determining the net amounts presented in the statement of financial position;
- c. The net amounts presented in the statement of financial position;
- The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in (b) above, including:
 - Amount related to recognized financial instruments that do not meet some or all of the offsetting criteria in PAS 32; and
 - Amounts related to financial collateral (including cash collateral);
 and
- e. The net amount after deducting the amounts in (d) from the amounts in (c) above.

The amendments to PFRS 7 are to be retrospectively applied for annual periods beginning on or after January 1, 2013. These amendments affect disclosures only and will not impact the Corporation's financial position or performance.

PFRS 9 Financial Instruments: Classification and Measurement.

PFRS 9, as issued, reflects the first phase of the IASB's work on the replacement of PAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined in PAS 39, Financial Instruments: Recognition and Measurement. Work on impairment of financial instruments and hedge accounting

is still ongoing, with a view to replacing PAS 39 in its entirety. PFRS 9 requires all financial assets to be measured at fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principals and interest on the principal outstanding. All other debt instruments are subsequently measured at fair value through profit or loss. All equity financial assets are measured at fair value either through other comprehensive income (OCI) or profit or loss. Equity financial assets held for trading must be measured at fair value through profit or loss. For FVO liabilities, the amount of change in fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of fair value change in respect to liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward into PFRS 9, including the embedded derivative separation rules and the criteria for using FVO. The adoption of the first phase of PFRS 9 will have an effect on the classification and measurement of the Corporation's financial assets, but will potentially have no impact on the classification and measurement of financial liabilities. PFRS 9 is effective for annual periods beginning on or after January 1, 2015.

PFRS 13, Fair Value Measurement.

PFRS 13 establishes a single source of guidance under PFRS for all fair value measurements. PFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under PFRS when fair value is required or permitted. This standard should be applied prospectively as of the beginning of the annual period in which it is initially applied. Its disclosure requirements need not be applied in comparative information provided for periods before initial application of PFRS 13. The standard becomes effective for annual periods beginning on or after January 1, 2013.

PFRS 10, Consolidated Financial Statements

PFRS 10 replaces the portion of PAS 27, Consolidated and Separate Financial Statements, that addresses the accounting for consolidated financial statements. It also includes issues raised in SIC 12, Consolidation – Special Purpose Entities. PFRS 10 establishes a single control model that applies to all entities including special purpose entities. The standard becomes effective for annual periods beginning on or after January 1, 2013.

c. 2009-2011 Annual Improvements to PFRSs

The Annual Improvements to PFRS (2009-2011 Cycle) made minor amendments to a number of PFRS, which are effective for annual period beginning on or after January 1, 2013. Among those improvements, the following amendments are relevant to the Corporation but management does not expect a material impact on Corporation's financial statements:

PAS 1, Presentation of Financial Statements – Clarification of the requirement for comparative information. The amendment clarifies the requirements for comparative information that are disclosed voluntarily and those that are mandatory due to retrospective application of an accounting policy, or retrospective restatement or reclassification of items in the financial statements. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional comparative periods do not need to contain a complete set of financial statements. On the other hand, supporting notes for the third balance sheet (mandatory when there is a retrospective application of an accounting policy, or retrospective restatement or reclassification of items in the financial statements) are not required. The amendment has no impact on the Corporation's disclosure, financial position or performance since the Corporation has no retrospective restatement or reclassification which will result to a third balance sheet.

PAS 16, Property, Plant and Equipment – Classification of servicing equipment. The amendment clarifies that spare parts, stand-by equipment and servicing equipment should be recognized as property, plant and equipment when they meet the definition of property plant and equipment and should be recognized as inventory if otherwise. The amendment will not have any significant impact on the Corporation's financial position or performance.

PAS 32, Financial Instruments: Presentation – Tax effect of distribution to holders of equity. This amendment clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with PAS 12 Income Taxes. The Corporation expects that this amendment will not have any impact on its financial position or performance.

2.3 Financial Instruments – Initial Recognition and Subsequent Measurement

a. Date of recognition

The Corporation recognized a financial asset or a financial liability in the statement of financial position when it becomes a party to the contractual provisions of the instrument. In the case of regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date of accounting.

b. Initial recognition of financial instruments

All financial instruments are initially recognized at fair value. Except for those financial instruments at fair value through profit or loss (FVPL), the initial measurement of financial assets and liabilities includes transaction costs. The Corporation classifies its financial instruments in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, available-for-sale (AFS) investments, and loans and receivables. Financial liabilities are classified into financial liabilities at FVPL and other financial liabilities recognized at amortized cost. The classification depends on the purpose for which the financial instruments were acquired and whether they are quoted in an active market.

Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

As of December 31, 2012 and 2011, the Corporation has no financial assets and liabilities at FVPL and HTM investments.

c. Determination of fair value

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction cost. When current bid and asking prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has been a significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, fair value is determined using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist and other relevant valuation models.

d. Day 1' difference

Where the transaction price in a non-active market is different to the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Corporation recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the statement of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Corporation determines the appropriate method of recognizing the 'Day 1' difference amount.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not designated as AFS or at FVPL. Loans and receivables also include the aggregate rental on finance lease transactions. Unearned income on finance lease transactions is shown as deduction from Loans and receivables (included in 'Unearned lease income' account).

After initial measurement, the loans and receivables are subsequently measured at amortized cost using the effective interest method, less allowance for credit losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are integral part of the effective interest rate (EIR). The amortization is included under 'Interest income on loans and receivables' in the statement of comprehensive income. The losses arising from

impairment of such loans and receivables are recognized in "Provision for credit and impairment losses' in the statement of comprehensive income.

Available-for-sale Financial Assets

AFS investments are those which are designated as such or do not qualify to be classified as designated as financial assets at FVPL, HTM investment or loans and receivables. They are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions.

After initial measurement, AFS investments are subsequently measured at fair value. The unrealized gains and losses arising from the fair valuation of AFS investments are excluded net of tax from reported income and are reported as "Net unrealized gain on AFS investments" in other comprehensive income (OCI) of the statement of comprehensive income.

When the security is disposed of, the cumulative gain or loss previously recognized in OCI is recognized as "Other Income" in the statement of income. Where the Corporation holds more than one investment in the same security, these are deemed to be disposed of on a first-in first-out basis. Interest earned on holding AFS debt investments are reported as "Interest Income" using EIR in the statement of income.

Dividends earned on holding other equity investments are recognized in the statement of income as "Miscellaneous Income" when the right of payment has been established.

Losses arising from impairment of such investments are recognized as "Provision for Credit and Impairment Losses" in the statement of income.

Available-for-sale Financial Assets are presented as a separate line item in the statement of financial position.

Bills payable and other borrowed funds

Bills payable and other borrowed funds, which are not designated at FVPL, are classified as liabilities under 'Bills payable' and other appropriate accounts in the statement of financial position, where the substance of the contractual arrangements results in the Corporation having an obligation either to deliver cash or another financial asset for a fixed number of own equity shares.

After initial measurement, bills payable and other similar financial liabilities not qualified as and not designated as at FVPL, are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are integral part of the EIR.

e. Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset has expired;
- the Corporation retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Corporation has transferred its right to receive cash flows from the
 asset and either (a) has transferred substantially all the risks and rewards
 of the asset or (b) has neither transferred nor retained the risks and
 rewards of the asset, but has transferred control of the asset.

Where the Corporation has transferred its right to receive cash flows from an asset or has entered into a "pass-through arrangement" and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Corporation's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying value of the asset and the maximum amount of consideration that the Corporation could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as a derecognition of the original financial liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of comprehensive income.

f. Impairment of Financial Assets

The Corporation assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of assets is deemed to be impaired if, and only if there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganizations and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

For loans and receivables carried at amortized cost, the Corporation first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Corporation determines that no objective evidence of impairment exists for individually assessed asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics (by product type and industry) and collectively assessed for

impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtor's ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, continues to be, recognized are not included in a collective assessment for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current EIR, adjusted for the original credit risk premium. The caiculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged against income. Interest income continues to be recognized based on the original EIR of the asset. Loans, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reduced by adjusting the allowance account. If a future write-off is later recovered, any amounts formerly charged are credited to 'Provision for credit and impairment losses' in the statement of comprehensive income.

Restructured Loans

Where possible, the Corporation seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original EIR. The difference between the recorded value of the original loan and the present value of the restructured cash flows, discounted at the original EIR, is recognized in 'Provision for credit and impairment losses' in the statement of comprehensive income.

Available-for-Sale Investment

For AFS investment, the Corporation assesses at each statement of financial position date whether there is objective evidence that a financial asset or group of financial assets is impaired.

In the case of investments classified as available-for-sale financial assets, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the assets are impaired. If any such evidence

exists for available-for-sale financial assets, the cumulative loss — measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss — is removed from profit or loss and recognized in other comprehensive income. Impairment losses recognized in other comprehensive income on equity instruments are not reversed through other comprehensive income. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through the statement of comprehensive income.

In the case of debt instrument classified as AFS investments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of "Interest Income" in the statement of income. If subsequently, the fair value of a debt instrument increased and the increase can be objectively related to an event occurring after the impairment loss was recognized in the statement of comprehensive income, the impairment loss is reversed through the statement of comprehensive income.

g. Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial condition if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2.4 Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- There is a change in contractual terms, other than a renewal or extension of the arrangement;
- A renewal option is exercised or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- There is a change in the determination of whether fulfilment is dependent on a specified asset; or
- There is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment scenarios above, and at the date of renewal or extension period.

Corporation as lessor

Finance leases, where the Corporation transfers substantially all the risk and benefits incidental to ownership of the leased item to the lessee, are included in the statements of financial position under "Loans and Other Receivables" account. A lease receivable is recognized at an amount equal to the net investment in the lease. The difference between the gross lease receivable and the net investment in the lease is recognized as unearned finance income. All income resulting from the receivable is included as part of Interest and Discounts in the statement of comprehensive income.

Leases where the Corporation does not transfer substantially all the risk and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as the rental income. Contingent rents are recognized as revenue in the year in which they are earned.

2.5 Residual Value of Leased Assets and Deposits on Lease Contracts

The residual value of leased assets, which approximates the amount of lease deposit paid by the lessee at the inception of the lease, is the estimated proceeds from the disposal of the leased asset at the end of the lease term. At the end of the lease term, the residual value receivable of the leased asset is generally applied against the lease deposit of the lease deposit of the lessee when the lessee decides to buy the leased asset.

2.6 Property and Equipment and Equipment and Other Property for Lease (EOPL)

Property and equipment and EOPL are carried at acquisition cost less accumulated depreciation and amortization and any impairment in value. The initial cost of property and equipment and EOPL consists of its purchase price, including import duties and non-refundable purchase taxes after deducting trade discounts and rebates, and any costs that are directly attributable to the location and condition necessary for it to be capable of operating in the manner intended by management.

Expenditures incurred after the property and equipment and EOPL have been put into operation, such as repairs and maintenance are normally charged against operations in the period in which the costs are incurred. In situation where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment and EOPL beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment and EOPL.

When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and amortization and any impairment losses are removed from the accounts and any resulting gain or loss is reflected in profit or loss for the period.

Depreciation is computed using the straight-line method over the estimated useful life of the depreciable assets. Government agencies are guided by the revised estimated useful life of property and equipment prescribed under Annex A of COA Circular No. 2003-007 dated December 11, 2003, with selected property and equipment applicable to the Corporation as follows:

Property and Equipment	Estimated Useful Life
Buildings	10-20 years
Transportation Equipment (motor vehicle)	7 years
Office, Equipment, Furniture and Fixtures	5-10 years
Other Property and Equipment	5 vears

Per the same COA circular, the residual value of property and equipment is fixed at ten per cent (10%) of the cost. The computation of the depreciation expense starts on the following month after the purchase/completion of property and equipment irrespective of the date within the month.

Equipment and other properties for lease are amortized over the terms of the leases or the estimated useful lives of the asset, whichever is shorter.

The carrying values of the property and equipment and EOPL are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, an impairment loss is recognized in the statement of income.

An item of property and equipment, including the related accumulated depreciation and impairment losses, if any, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period the item is derecognized.

2.7 Investment Properties

Investment properties acquired in exchange of loans are recorded at the fair value of the properties on acquisition dates. Fair value is supported by market evidence and is determined by appraisers with sufficient experience with respect to both location and the nature of the investment property.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in "Gain on sale of properties" included under "Other Income" in the statement of income in the period of retirement or disposal.

Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are charged against current operations in the year in which costs are incurred.

2.8 Non-Current Assets Held for Sale

Non-Current Assets held for sale include foreclosed collateral of delinquent customers that the Corporation intends to sell within one year from the date of classification as held for sale.

The Corporation classifies assets as held for sale when their carrying amount will be recovered principally through a sale transaction rather than through continuing use. For this to be the case the asset must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets and its sale must be highly probable. For the sale to be highly probable the appropriate level of management must be committed to a plan to sell the asset and an active program to locate a buyer and complete the plan must have been initiated. Further, the asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value. In addition, the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets held for sale are carried at the lower of its carrying amount and fair value less costs to sell. Assets classified as held for sale are not subject to depreciation or amortization. If the Corporation has classified an asset as held for sale but the criteria for it to be recognized as held for sale are no longer satisfied, the Corporation shall cease to classify the asset as held for sale.

The gain or loss arising from the sale or remeasurement of held for sale assets is recognized in profit or loss as part of Other Income account in the statement of comprehensive income.

2.9 Impairment of Non-financial Assets

An assessment is made at each reporting date whether there is any indication of impairment of any asset, or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use or its fair value less costs to sell.

The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction less cost to sell while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

An impairment loss is charged against income in the year in which it arises, unless the asset is carried at a revalued amount in which case the impairment loss is charged against the revaluation increment of the said asset. A previously recognized impairment loss is reversed only if there has been a change in estimates used to determine the recoverable amount of an asset, but not to an amount that would have been determined (net of any depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is credited to current operations, unless the asset is carried at a revalued amount in which case the reversal of the impairment loss is credited to revaluation increment of the said asset.

2.10 Provisions

Provisions are recognized when present obligations (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and a reliable estimate can be made of the amount of obligation. Where the Corporation expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense related to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in provision due to the passage of time is recognized as an interest expense.

2.11 Contingent Assets and Contingent Liabilities

Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefit is probable. Contingent liabilities are not recognized in the financial statements but are disclosed unless a possibility of an outflow of assets embodying economic benefits is remote.

2.12 Equity

Common stock represents the nominal value of shares that have been issued.

Additional paid-in capital includes any premiums received on the issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Treasury shares are stated at the cost of reacquiring such shares and are deducted from equity attributable to the Corporation's equity holders until the shares are cancelled, reissued or disposed of.

Unrealized fair value gain (loss) on available-for-sale financial assets pertains to cumulative mark-to-market valuation of available-for-sale financial assets.

Retained earnings include all current and prior period results as disclosed in the statement of comprehensive income.

2.13 Revenue and Expense Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured. The following specific recognition criteria of income and expenses must also be met before revenue is recognized:

Income on direct financing leases, loans and receivables financed

Interest and finance fees on finance lease and loans and receivables financed and the excess of the aggregate lease rentals plus the estimated residual value of the leased equipment over its cost are credited to unearned finance income and

amortized over the term of the note or lease using the EIR method. Unearned income ceases to be amortized when receivables become past due

b. Income from operating lease

Rent income arising from operating leases is recognized on a straight-line basis over the lease term and is recorded under "Other Income" in the statement of comprehensive income.

c. Interest and discounts

Interest income are recognized in profit or loss for all instruments measured at amortized cost using the EIR method. When calculating the effective interest rate, the Corporation estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

d. Service fees

Fees related to the administration and servicing a loan are recognized as revenue as the services are rendered. Service fees are recognized when earned or accrued when there is a reasonable degree to its collectibility.

e. Other income

Other income is recognized when earned.

f. Expense Recognition

Expenses are recognized when it is probable that decrease in future economic benefits related to decrease in asset or an increase in liability has occurred and that the decrease in economic benefits can be measured reliably. Expenses that may arise in the course of ordinary regular activities of the Corporation include among others the operating expenses on the Corporation's operation.

g. Borrowing Costs

Borrowing costs are recognized as expenses in the year in which these costs are incurred. Borrowing costs consist of interest and other costs that the Corporation incurs in connection with borrowing of funds. It is calculated using the effective interest method in accordance with PAS 39.

2.14 Employee Benefits

a. Retirement Benefit Obligations

The Corporation adopted a noncontributory defined benefit retirement plan covering substantially all its employees. As of December 26, 2012, the initial deposit of P 6.751 was made to the LLC Employees' Retirement Trust Fund Account with the LBP Trust Banking Group (TBG) under the Trust Agreement entered into by LLC and LBP TBG on November 28, 2012 (Note 25.2). For the year 2012, LLC recognized Retirement Obligations in the amount of P1.576 million representing additional obligations based on Article V of the LBP Subsidiaries Retirement Benefit Plan which defines the percentage of entitlement of incumbents to retirement benefits. Adjustments thereon and on the Retirement Trust Fund shall be made upon receipt of the actuarial valuation which is expected within the year 2013.

b. Compensated Absences

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of each reporting period. They are included in Accrued Other Expenses Payable account at the undiscounted amount that the Corporation expects to pay as a result of the unused entitlement.

2.15 Income Taxes

Income Tax on profit or loss comprises current and deferred tax. Income tax is determined in accordance with Philippine tax law. Income tax is recognized in the statement of income, except to the extent that it relates to OCI items recognized directly in the statement of comprehensive income.

a. Current Tax

Current tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of the reporting period. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the period. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of comprehensive income.

c. Deferred Tax

Deferred tax is provided, using the balance sheet liability method, on temporary differences at the end of each reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax asset can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of each reporting period.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in profit or loss. Only changes in deferred tax assets or liabilities that relate to items recognized in other comprehensive income or directly in equity are recognized in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same taxation authority.

2.16 Earnings Per Share (EPS)

Basic earnings per common share is determined by dividing net income by the weighted average number of common shares subscribed and issued during the year, adjusted retroactively for any stock dividend, stock split or reverse stock split declared during the current period. The Corporation does not have dilutive common shares.

2.17 Related Party Relationships and Transactions

Related party relationship exists when one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities which are under common control with the reporting enterprise, or between, and/or among the reporting enterprise and its key management personnel, directors or its shareholder. In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

2.18 Events After the Reporting Date

Post year-end events that provide additional information about the Corporation's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Corporation's financial statements prepared in accordance with PFRS requires management to make judgments and estimates that affect amounts reported in the financial statements and related notes. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in

estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3.1 Judgments

In the process of applying the Corporation's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial statements:

a. Finance leases

The Corporation entered into finance leases. The Corporation has determined that it has transferred all the significant risks and rewards of ownership of the properties which are leased out on finance lease arrangements. Interest earned on finance lease arrangements amounted to P322.997 million and P322.375 million in 2012 and 2011, respectively (see Note 8).

b. Operating leases

The Corporation entered into operating leases. The Corporation has determined that it retains all the significant risks and rewards of ownership over the properties which are leased out on operating lease arrangements. The Corporation's rent income on operating lease arrangements amounted to P48.572 million and P49.799 million in 2012 and 2011, respectively (see Note 23).

c. Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Corporation used judgments in assessing the significance of a particular input to the fair value measurements in its entirety, considering factors specific to the asset or liability.

In accordance with the amendments to PFRS 7, disclosures about the level of fair value hierarchy are required in which the fair value measurements are categorized for assets and liabilities measured in the statement of financial position. The Corporation used judgment in assessing the significance of a particular input to the fair value measurements in its entirety, considering factors specific to the asset or liability.

d. Provisions and Contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition and disclosure of provisions are discussed in Note 2.10 and in Note 2.11 for contingencies. Relevant disclosures of contingencies are presented in Note 31.

3.2 Estimates

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a. Impairment Losses on Loans and Other Receivables

The Corporation reviews its loans and receivables to assess impairment at least on an annual basis to assess whether provision for credit losses should be recorded in the statement of comprehensive income. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

As of December 31, 2012 and 2011, allowance for credit losses on Loans and Receivables amounted to P212.087 million in 2012 and P164.141 million in 2011 in the Corporation (see Note 8).

b. Impairment losses on AFS Investments

The Corporation determines that AFS investment are impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgment. In addition, the Corporation evaluates when there is evidence of deterioration in the financial health of the investee, industry and sector performance and operational and financing cash flows.

As December 31, 2012 and 2011, 100% allowance on impairment losses of AFS investments has been recognized against its carrying value of P5.825 million.

d. Impairment of EOPL, Property and Equipment, Investments Property and Non-Current Assets Held for Sale

The Corporation assesses impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Corporation considers important which could trigger an impairment review include the following:

 Significant underperformance relative to expected historical or projected future operating results;

- Significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- Significant negative industry or economic trends.

The Corporation recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the assets' net selling price or value in use. The net selling price is the amount obtainable from the sale of an asset in an arm's length transaction less cost to sell while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, the cash generating unit to which the asset belongs.

The carrying values of the Corporation's non-financial assets are as follows:

	2012	2011
Investment Property (Note 9)	2,314	13.567
EOPL (Note 10)	7,060	8,137
Property and Equipment (Note 11)	35,170	35,210
Non-Current Assets Held for Sale (Note 12)	7,441	2,714

Allowance for impairment losses on Investment Property amounted to P3.062 million and P2.392 million as of December 31, 2012 and 2011, respectively, while Allowance for impairment losses on Non-Current Assets Held for Sale amounted to P1.907 million and P3.294 million in 2012 and 2011, respectively. There are no impairment losses on EOPL and Property and Equipment for years 2012 and 2011. (See Note 15)

d. Recognition of Deferred Tax Assets

The Corporation reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Significant management judgment is required to determine the amount of deferred tax asset that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

As of December 31, 2012 and 2011, deferred tax assets recognized amounted to P62.547 million and P50.379 million (see Note 14), respectively.

e. Estimated useful lives of EOPL and property and equipment

The Corporation reviews on an annual basis the estimated useful lives of EOPL and property and equipment based on expected asset utilization as anchored on business plans and strategies that also consider expected future technological developments and market behavior. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A reduction in the estimated useful lives would increase the recorded depreciation expense and decrease noncurrent assets. The estimated useful lives of depreciable assets are disclosed in Note 2.6.

4. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Corporation has exposure to the following risks arising from financial instruments:

- Credit Risk
- Interest Rate Risk
- Liquidity Risk

Risk Management Framework

The Board of Directors has overall responsibility for the establishment and oversight of the Corporation's risk management framework. The Board has established the Risk management Committee, which is responsible for developing and monitoring the Corporation's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The risk management policies are established to identify and analyze the risks faced by the Corporation, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market conditions and activities by the Corporation.

The Audit Committee oversees how management monitors and ensures compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks face by the Corporation. Risk management processes within the Corporation are audited by the internal audit that examines both adequacy of the procedures and the Corporation's compliance with the procedures. Internal audit discusses the results of all assessment with management and reports its findings and recommendations to the Audit Committee.

The Corporations' risk management policies are summarized below:

4.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. This risk may further be classified as pre-settlement and settlement risk (PSR and SR, respectively). PSR is the risk that the obligor will fail to meet the terms of the contract and default before the contract's settlement date, prematurely ending the contract. SR, on the other hand, is the risk that the obligor will fail to deliver the terms of a contract with another party at the time of settlement. SR can be the risk associated with default at settlement and any timing differences in settlement between the Corporation and the counterparty. The management therefore carefully assesses and manages its exposures to both types of credit risks.

a. Credit Risk Management

The Corporation manages credit risk by implementing adequate credit evaluation and approval processes as well as setting limits for individual borrowers, group of borrowers and industry segments. The Corporation maintains a general policy of avoiding excessive exposure in any particular sector of the Philippine economy. The Corporation actively seeks to increase its exposure to priority sector as its Parent Bank's industry sector which it believes possess attractive growth

opportunities. Conversely, it actively seeks to reduce its exposure in industry sectors where growth potential is minimal. Although the Corporation's leasing and financing portfolio is composed of transactions with a wide variety of businesses, the results of operation and financial condition of the Corporation may be diversely affected by any downturn in these sectors as well as the Philippine economy in general.

The Corporation assesses the probability of default of individual counterparties using internal rating tools tailored to the various categories of counterparty. In the Corporation's rating scale, exposures migrate between classes as the assessment of their probability of default changes. The rating tools are reviewed and upgraded as necessary. The Corporation regularly validates the performance of the rating and their predictive power with regard to default events. Clients of the Corporation are segmented into the following standard Bangko Sentral ng Pilipinas (BSP) classifications.

- Unclassified these are loans and receivables that do not have a greaterthan-normal risk and do not possess the characteristics of loans classified below. The counterparty has the ability to satisfy the obligation in full and therefore no loss in ultimate classification is anticipated.
- Loans especially mentioned these are loans and receivables that have potential weaknesses that deserve management's close attention. These potential weaknesses, if left uncorrected, may affect the repayment of the loan and thus increase the credit risk of the Corporation.
- Substandard these are loans and receivables which appear to involve a substantial and unreasonable degree of risk to the Corporation because of unfavourable record or unsatisfactory characteristics. Further, these are loans with well-defined weaknesses which may include adverse trends or development of financial, managerial, economic or political nature, or a significant deterioration in collateral.
- Doubtful these are loans and receivables which have the weaknesses similar with those of the Substandard classification with added characteristics that existing facts, conditions, and values make collection or liquidation in full highly improbable and which substantial loss is probable.
- Loss these are loans and receivables which are considered uncollectible
 or worthless and of such little value that their continuance as bankable
 assets is not warranted although the loans may have some recovery or
 salvage value.
- b. Collateral and other credit risk mitigation

The amount and type of collateral required depends on an assessment of the credit risk of the obligor. The Company implements certain requirements regarding the acceptability of types of collateral and valuation.

Collateral comes in the form of financial and non-financial assets. The main types of collaterals obtained include liens over cash deposits, real estate properties, chattel mortgages and mortgages over residential properties. The Corporation also obtains guarantees from parent companies for loans of borrowing entities belonging to a group of companies.

The Corporation monitors market value of collateral, and request for additional collateral in accordance with the underlying agreement, and monitors the market value of collateral obtained during its review of the adequacy of the allowances for credit losses.

The following table shows the breakdown of receivables as to collateral:

	2012	2011
Secured		·
Property under finance lease	1,862,879	1,593,894
Real estate mortgage	208,723	293,463
Chattel mortgage	662,930	733,634
	2,734,532	2,620,991
Unsecured	384,307	332,147
	3,118,839	2,953,138

c. Impairment and Provisioning Policies

As described in Note 4.1(a), the Corporation's credit-quality mapping on loans and receivables is based on the standard BSP classification. For financial reporting purposes, however, impairment provisions are recognized for losses that have been incurred at the reporting date based on objective evidence of impairment (see Note 2.3(f)).

The table shows the percentage of the Corporation's loans and receivables and the related allowance for impairment:

	2012		20	11
- 50	Loans and Receivables (%)	Impairment Provision (%)	Loans and Receivables (%)	Impairment Provision (%)
Unclassified Loans especially	91.68	8.26	89.90	-
mentioned	0.56	1.38	2.85	3.18
Substandard	1.58	1.52	2.00	17.67
Doubtful	2.47	33.12	2.40	30.10
Loss	3.71	55.72	2.85	49.05
	100.00	100.00	100.00	100.00

d. Maximum exposure to credit risk before collateral held or other credit enhancements

The balance sheet assets that are exposed to credit risk are as follows:

	2042	0044
Cook and Cook assistated	2012	2011
Cash and Cash equivalent	44,594	19,973
Available for Sale Financial Asset	5,825	5.825
Loans and Other Receivables	3,176,415	2,983,859
Other Asset - accounts receivables	474	462

The above table represents the maximum credit risk exposure of the Corporation at December 31, 2012 and 2011, without taking into account any collateral held or other credit enhancements as it is impracticable to determine the fair values of these collaterals held by the Corporation as security against its loans and receivables. The exposures set out above are based on gross carrying amounts as reported in the balance sheet.

The credit quality of the financial assets was determined as follows:

Finance Assets	Basis of Credit Quality
	(In Thousands of Pesos)
Accounts Receivables and Other Assets	Nature of the counterparty and the Corporation's internal rating
Loans and Other Receivables	BSP classification described in Note 4.1(a)

The Corporation does not have significant exposure to any individual customer or counter-party nor does it have any major concentration of credit risk related to any financial instrument. The credit exposure granted to Republic of the Philippines and/or its agencies/departments/bureaus are considered non-risk and not subject to any ceiling in accordance with BSP Circular No. 514.

The Corporation maintains its cash in bank in its Parent Bank and with other universal banks which are highly rated among the top ten in the country.

e. Concentrations of risks of financial assets with credit risk exposure

The Corporation's main credit exposure at their carrying amounts, as categorized by industry sectors follow:

As at December 31, 2012	Cash and Cash Equivalent	Available for sale Securities	Loans and Receivables	Other Asset (accounts
Agriculture, fishing and forestry	- 1,5,11, 1,11		42,164	
Wholesale and Retail Trade		_	485,356	-
Manufacturing	-	-	86,557	
Public Utilities	-	-	156.703	461 12
Services Banks & Other Fin'l.	-	-	698,648	湿
Institutions	44,594	5,825	351,321	2
Real Estate	-	-	231,731	
Public Sector	-	-	1,022,735	-
Others	-	-	101,200	474
Less Allowance	-	(5,825)	(212,087)	-
	44,594	-	2,964,328	474

	Cash			Other
An of Donombor 24, 2044	and Cash	Available for sale	Loans	Asset
As at December 31, 2011	Equivalent	Securities	and Receivables	(accounts
Agriculture, fishing and	Lquivalent	- Countries	Receivables	receivable)
forestry	-	-	48,395	-
Wholesale and Retail Trade	-	-	487,409	2
Manufacturing	-	~	112,059	=
Public Utilities	-	_	319,653	2
Sevices Banks & Other Fin'l.	-	-	345,700	
Institutions	19,973	5,825	374,660	-
Real Estate	-	-	179,845	-
Public Sector	-	-	1,027,340	_
Others	-	-	88,797	462
Less Allowance	-	(5,825)	(164,140)	-
	19,973		2,819,718	462

f. Credit Quality of Financial Assets

The credit quality of financial assets, net of unearned lease income, interest and discount but gross of allowance for credit losses is as follows:

	2012	2011
Neither past due nor impaired	2,800,192	2,655,008
Past due but not impaired	-	-
Impaired	318,647	298,130
	3,118,839	2,953,138

Neither past due nor impaired

When entering into new markets or new industries, the Corporation focuses on businesses with good credit rating in order to minimize the potential increase in credit risk exposure. Loans and lease receivables that are neither past due nor impaired are due from corporate accounts that have appropriate and strong credit history, with minimal account defaults and whose receivables are fully recoverable based on past experiences.

Past due but not impaired

Past due loans and lease receivables are not considered impaired, unless other information is available on the contrary. Collateralized past due are not considered impaired when cash flows that may result from foreclosure of the related collateral are higher than the carrying amount of the loans.

Impaired

Impaired loans and lease receivables includes accounts which are individually and collectively assessed for impairment. The total impairment provision for loans and lease receivable represents provision for individually and collectively impaired loans and lease receivables. Further information on impairment of loans and lease receivable is provided in Note 8.

4.2 Interest Rate Risk

The Corporation follows a prudent policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. The Corporation is vulnerable to increase in market interest rates. However, in consideration of the adequate net interest margin between the Corporation's funding cost and its interest-earning assets; and favorable lease and financing terms which allow the Corporation to (a) re-price periodically as agreed, and (b) to re-price at any time in response to extraordinary fluctuations in interest rates, the Corporation believes that the adverse impact of any interest rate increase would be limited.

4.3 Liquidity Risk

Liquidity Risk is the risk that the Corporation is unable to grant additional credit and/or its failure to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the loss of clients and/or being in default on its obligations to its creditors.

The primary business of the Corporation entails the borrowing and re-lending of funds. Consequently, it is subject to substantial leverage, and may thereof be exposed to potential financial risks that accompany borrowing. In relation to its various borrowing arrangements, the Corporation is currently subject to certain requirements relating to the maintenance of acceptable liquidity and leverage ratios.

Analysis of financial liabilities by remaining contractual maturities

The table below summarize the maturity profile of the Corporation's financial liabilities on contractual undiscounted repayment obligations.

	Up to	Over 1 up to	Over	
As at December 31, 2012	1 year	3 years	3 years	Total
Liabilities		-		
Bills Payable	1,122,700	23,334	420,851	1,566,885
Deposit on Lease Contracts	87,325	100,641	60,321	248,287
Accrued Other expenses	53,691	<u>.</u>	-	53,691
Other Liabilities	35,231		-	35,231
	1,298,947	123,975	481,172	1,904,094

	Up to	Over 1 up to	Over	
As at December 31, 2011	1 year	3 years	3 years	Total
Liabilities				
Bills Payable	1,437,567	38,889	100,317	1,576,773
Deposit on Lease Contracts	61,097	55,665	44,994	161,756
Accrued Other expenses	34,547	-	-	34,547
Other Liabilities	37,853	-		37,853
	1,571,064	94,554	145,311	1,810,929

^{*}Other liabilities identified as financial liabilities do not include accrued taxes and licenses, accrued income tax payable, fringe benefit tax payable and withholding taxes payable.

Assets available to meet all of the liabilities include cash in bank and loans and receivables. The Corporation would also be able to meet unexpected net cash outflows by accessing additional funding sources.

4.4 Capital Management

The objective of the Corporation's capital management is to maintain healthy capital ratios like debt-equity, return on equity and return on asset, in order to support its business and protect shareholder value. The Corporation manages its capital structure and makes adjustment to it in light of changes in economic conditions.

The Corporation has complied with the capital requirements under RA No. 8556, the *Financing Company Act*, which states that financing companies shall have a paid-up capital of not less than P10.0 million. The Corporation has no branches requiring additional capital requirement.

The Corporation is 100%-owned by its Parent Bank, a domestic bank. As at December 31, 2012 and 2011, the level of capital of the Corporation more than meets the minimum required capital.

The Corporation's capital to overall financing as of December 31, 2012 and 2011 are computed as shown below:

	2012	2011
Total Equity	1,212,079	1,130,095
Cash and Cash Equivalent	(44,594)	(19,973)
Net Capital	1,167,485	1,110,122
Bills Payable	1,566,885	1,576,773
Deposit on Lease Contracts	248,287	161,756
Total Equity	1,212,079	1,130,095
Overall Financing	3,027,251	2,868,624
Capital-to-overall financing ratio	1 : 2.59	1:2.58

5. Fair Value Measurement

The following table summarizes by category the carrying amounts and fair value of financial assets and liabilities. Where fair value is presented, such fair value is determined based on valuation techniques described below.

	2012		2011	
W	Cost	Fair Value	Cost	Fair Value
Cash and Cash equivalents	44,594	44,594	19,973	19,973
Available for sale financial asset	5,825	_	5,825	-
Loans and other Receivables	3,176,415	2,964,328	2,983,860	2,819,718
Bills payable	1,566,885	1,566,885	1,576,773	1,576,773
Accrued taxes and other expenses	68,784	68,784	50,376	50,376
Other liabilities	36,297	36,297	37,900	37,900
Deposit on lease contracts	248,287	248,287	161,756	161,756

The methods and assumptions used by the Corporation in estimating the fair value of the financial instruments follow:

a. Cash and cash equivalents

The fair values of cash and cash equivalents approximate carrying amounts given their short-term maturities.

b. Available-for-sale financial assets

The fair value of available-for-sale securities is reduced to zero due to suspension of trading of stock.

c. Loans and other receivables

The estimated fair value of loans and other receivables represents the discounted amount of estimated future cash flow expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

d. Bills payable

The estimated fair value of bills payable represents the discounted amount of estimated future cash flows expected to be paid. Expected cash flows are discounted at current market rates to determine fair value.

e. Accrued taxes and other expenses

Fair values approximate carrying amounts given the short-term maturities of the liabilities.

f. Other liabilities

Fair values approximate carrying amounts given the short-term maturities of the liabilities.

g. Deposits on Lease Contracts

Deposits on lease contracts are carried at amortized cost which represents the present value.

Fair Value Hierarchy

The Corporation uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are
 Observable for the resource or liability, either directly (i.e. as prices) or
 indirectly (i.e. derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

6. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, savings and current account deposits and short-term placement with original maturities of three months or less from dates of placements and that are subject to insignificant risk of change in value.

This account consists of:

	2012	2011
Cash on Hand		
Checks and Other Cash Items	25	_
Petty Cash Fund	20	20
Deposits in Bank	44,549	19,953
	44,594	19,973

Cash in bank earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of LBP Lease, and earn interest at the respective short-term deposit rates.

7. AVAILABLE-FOR-SALE FINANCIAL ASSETS

This account consists of:

	2012	2011
Available for sale securities shares-listed	5,825	5,825
Accumulated market losses	(5,825)	(5,825)

The account reflects holdings of 5,825,000 shares of common stock of Export and Industry Bank (EIB).

In 2001, LBP Lease bought deposit receivables of a particular client from Urban Bank at the discounted price of P43.350 million. In September 2004, the receivables (amounting to P58.245 million by then) were settled by the rehabilitated bank renamed as Export-Industry Bank (EIB), thru cash settlement of P52.425 million and 5.825 million shares of common stocks at a par value of P1.00 per share. With the settlement, the investment on the receivables was closed and the 5.825 million shares of Common Stock of EIB were booked as Available-for-sale securities.

The common shares of EIB are publicly held and traded. As part of its rehabilitation program, EIB implemented a reverse split on its common shares, reducing the par value of P1.00 per share to 25¢ per share.

In May 2009, trading on the stock was suspended in view of the pending purchase of EIB by another bank. The acquisition has already been given an approval in principle by the Bangko Sentral ng Pilipinas (BSP). Prior to the suspension in May 2009, shares of EIB were trading at 14¢ per share.

In April 2012, BSP placed EIB under the receivership of Philippine Deposit Insurance Corporation (PDIC) after its total liabilities exceeded its total assets. On October 18, 2012, PDIC scheduled the bidding for EIB but the bidding failed as no potential investors appeared due to the three-day temporary restraining order (TRO) issued by the Makati

Regional Trial Court in October 17, 2012 as requested by some of the parties which has claims against the bank.

A rebidding was scheduled on March 20, 2013 but this did not push through because no strategic third party investor has submitted a letter of interest or a pre-bid documentary requirement. Based on these events, PDIC will submit its final assessment to the Bangko Sentral ng Pilipinas. BSP will soon issue a resolution on the matter.

8. LOANS AND RECEIVABLES

BSP Reporting

Details of finance lease receivable as to industry/economic sector and collateral type at December 31, 2012 are as follows:

a. As to industry/economic sector (in %)

	2012	2011
Agriculture, fishing and forestry	1.35	1.64
Wholesale and Retail Trade	15.55	16.50
Manufacturing	2.76	3.79
Public Utilities	4.98	10.82
Services	22.31	11.71
Banks & Other Fin'l. Institutions	9.73	11.92
Real Estate	7.42	6.09
Public Sector	32.74	34.79
Others	3.16	2.74
	100.00	100.00

The BSP considers that concentration of credit exists when total loan exposure to a particular industry or economic sector exceeds 30% of total loan portfolio. However, credit granted to Public Sectors, in accordance with the BSP Circular No. 514 and it's Manual of Regulations for Banks and Non-Bank Financial Intermediaries, specifically provide that loans, other credit accommodations and guarantees to the Republic of the Philippines (ROP) and/or its agencies/departments/bureaus shall be considered non-risk and not subject to any ceiling.

b. As to collateral

	2012	2011
Secured		
Property under finance lease	1,862,879	1,593,894
Real estate mortgage	208,723	293,463
Chattel mortgage	662,930	733,634
	2,734,532	2,620,991
Jnsecured	384,307	332,147
	3,118,839	2,953,138

BSP Circular No. 351 allow nonbanks with no unbooked valuation reserves and capital adjustments required by the BSP to exclude from nonperforming classification those receivables from customers classified as 'Loss' in the latest examination of the BSP which are fully covered by allowance for credit losses, provided that interest on said loans shall not be accrued.

As of December 31, 2012 and 2011, nonperforming loans (NPLs) not fully covered by allowance for credit losses follow:

	2012	2011	
Total NPLs	263,256	270,391	
Less NPLs fully covered by allowance for credit losses	(105,930)	(101,814)	
	157,326	168,577	

As of December 31, 2012 and 2011, secured and unsecured NPLs follow:

		2011
Secured	131,398	168,875
Unsecured	131,858	101,516
	263,256	270,391

9. INVESTMENT PROPERTY

These include acquired land and buildings that are held to earn rentals, or for capital appreciation, or both. The movements of the Investment Property account are presented below:

	Land	Building	Equipment	Total
At Cost				*
At January 1, 2012	14,708	2,658	-	17,366

Impairment	3,062			3,062
At December 31, 2012	3,062		pa pa	3,062
Net book value - December 31, 2012	2,314	-		2,314
Net book value - December 31, 2011	12,316	1,251	-	13,567

The aggregate market value of investment properties as of December 31, 2012 and 2011 amounted to P7.056 million and P15.399 million, respectively. Fair value has been determined based on valuations made by in-house appraisers or accredited independent appraisers. Valuations were derived on the basis of information on the prevailing market value of similar/ comparable real properties in the same area as the investment properties and taking into account the economic conditions prevailing at the time the valuation were made.

10. EQUIPMENT AND OTHER PROPERTY FOR LEASE

The Corporation entered into sale and leaseback transactions classified as financial lease with various lessees, involving various equipment with terms ranging from 24 to 60 months. The equipment is initially booked as 'Equipment and Other Property for Lease – Financial Lease' until the Certificate of Acceptance from client is received, and the corresponding implementation memo is approved for booking to 'Lease Contract Receivables'.

The Corporation also entered into an operating lease with its Parent bank, with lease terms ranging from 12 to 60 months, involving transportation equipment.

The gross carrying amount and accumulated depreciation of the subject equipment as of December 31, 2012 and 2011 follow:

307	2012	2011
Operating Lease	52,167	52,167
Accumulated Depreciation - Operating Lease	(45,107)	(44,030)
Equipment and Other Property for Lease	,	8,137

Depreciation charges for the year amounting to P1.077 million is included as part of Depreciation/amortization account under Direct Expenses in the statement of comprehensive income.

11. PROPERTY AND EQUIPMENT

The composition of and movement in this account are as follow:

	Building and	Furniture	Transportation	
	Improvements	and Fixtures	Equipment	Total
Cost				3.
January 1, 2012	42,755	11,326	1,567	55,648

December 31, 2012	42,566	12,724	1,567	56,857

Accumulated Depreciation

Net Book Value - December 31, 2011	32,063	3,074	73	35,210
	30,649	4,448	73	35,170
Net Book Value - December 31, 2012				
December 31, 2012	11,917	8,276	1,494	21,687
Disposals/Adjustment	(38)	(851)		(889)
Depreciation	1,263	875	_	2,138
January 1, 2012	10,692	8,252	1,494	20,438

As of December 31, 2012 and 2011, gross carrying amount of fully depreciated property and equipment still in use by the Corporation amounted to P0.569 million and P0.536 million, respectively.

Depreciation charges for the year are included as part of Depreciation/amortization account under General and Administrative Expenses of the statements of comprehensive income. The composition of the Corporation's depreciation and amortization in the statement of comprehensive income is as follows:

	2012	2011
Investment property	5	31
Equipment and other properties for lease	1,077	6.873
Property and Equipment	2,138	,
Property and Equipment (ROPA)	191	2.084
Other assets (Intangibles)	271	72
	3,682	9,060

12. NON-CURRENT ASSETS HELD FOR SALE

This account pertains to group of assets to be disposed of, by sale or otherwise, in a single transaction. Thus, these assets are available for immediate sale at its present condition and the sale is highly probable.

	Land	Building	Equipment	Total
Balance at January 1, 2012	2,702	12	-	2,714
Addition/Reclassification	13,541	361	1,610	15,512
Disposal	(8,661)	(217)	-	(8,878)
Impairment	(1,320)		(587)	(1,907)
Balance at December 31, 2012	6,262	156	1,023	7,441
Balance at December 31, 2011	2,702	12		2,714

The changes in allowance for impairment are as follows:

2012	2011		
3 294	185		
,	· - -		
, -	3,109		
(3,062)			
1,907	3,294		
	3,294 1,675 (3,062)		

The Corporation recognized gain from sale of non-current assets held for sale amounting to P4.656 million in 2012 and loss of P 1.332 million in 2011.

13. OTHER ASSETS

Current and non-current classification of other assets as at December 31, 2012 and 2011 are as follows:

		2012	
	Due within one year	Due beyond one year	Total
Miscellaneous Assets	4,779	1.075	5,854
Prepaid Expense	1,924	-	1,924
Intangibles	721	1,154	1,875
Accounts Receivables	474	-	474
Stationeries and supplies unissued	1 01	-	101

14. DEFERRED TAX ASSET

This account consists of:

		2012	
	Due within one year	Due beyond one year	Total
Deferred Tax Asset		62,547	62,547
		2011	
	Due within one year	Due beyond one year	Total
Deferred Tax Asset		50,379	50,379

15. ALLOWANCE FOR CREDIT AND IMPAIRMENT LOSSES

Changes in the allowance for probable losses are as follows:

	2012	2011
Balance as at January 1		
Financial Lease Receivables	6,438	5.302
Loans and Receivables Financed	156,329	100.524
Accounts Receivables - clients	1,321	1,224
Accrued Interest Receivables	53	53
Investment Property	2,392	1,231
Non-current Assets held for sale	3,294	185
Other Assets	1,566	1,566
	171,393	110,085
Provisions for the year	49,200	61,408
Accounts Charged off and Others	(2,171)	(100)
Balance as at December 31	218,422	171,393

Allocations of allowance for credit and impairment losses are as follows:

	2012	2011
Balance as at December 31		
Financial Lease Receivables	26,259	6,438
Loans and Receivables Financed	183,859	156,329
Accounts Receivables - clients	1,960	1,321
Accrued Interest Receivables	9	53
Investment Property	3,062	2.392
Non-current Assets held for sale	1,907	3,294
Other Assets	1,366	1,566
	218,422	171,393

With the foregoing level of allowance for probable losses, Management believes that LBP Lease has sufficient allowance to take care of any losses that may be incurred from the non-collection or non-realization of its receivables and other risk assets.

16. BILLS PAYABLE

This account represents peso borrowings from various banks.

	2012	2011
Current:		
Promissory Note		1,437,567
Non-Current		
Promissory Note	420,851	100,317
Retail Countryside Fund	23,334	38,889
	444,185	139,206
	1,566,885	1,576,773

Interest rates on bills payable follow:

	2012	2011
Promissory Note	5.00% - 8.00%	5.00% - 8.00%
Retail Countryside Fund	4.00% - 5.49%	4.50% - 5.46%

Bills payable are made at terms equivalent to those that prevail in arm's length transactions. Outstanding balances as of December 31, 2012 and 2011 are partially secured with terms of maturity ranging from 90 days to 10 years. Interest Expense on borrowings amounted to P86.772 million and P79.310 million for the years ending December 31, 2012 and 2011, respectively.

As at December 31, 2012, there are no defaults and breaches on these promissory notes.

17. DEPOSITS ON LEASE CONTRACTS

This account represents deposits on:

	<u> </u>	2012	2011
Financial Leases		238,240	151,811
Operating Leases		10,047	9,945
		248,287	161,756

Breakdown of deposits on finance leases by contractual settlement dates as at December 31, 2012 and 2011 is as follows:

D	2012	2011
Due within 1 year	87,325	61,097
After 1 year up to Maturity	160,962	100,659
	248,287	161,756

18. ACCRUED TAXES AND OTHER EXPENSES

This account consists of:

	2012	2011
Accrued Other Expenses Payable	49.164	29.209
Accrued Income Tax Payable	13,235	13,760
Accrued Interest Payable	4,526	5.338
Accrued Other Taxes and Licenses Payable	1,859	2,069
	68,784	50,376

All accrued interest, taxes and other expenses are due within a year from the balance sheet date.

19. OTHER LIABILITIES

	2012	2011
Accounts Payable - Suppliers	11,735	4,784
Withholding Tax Payable	1,062	1,844
Accounts Payable - Others	966	1,399
Pag-ibig Fund Payable	24	22
Philhealth Payable	10	9
SSS Payable	9	24
Fringe Benefit Tax Payable	3	3
Miscellaneous Liabilities	22,488	31, 61 5
	36,297	39,700

As at December 31, 2012 and 2011, the account balances comprising this account will mature within the next 12 months from respective balance sheet dates.

Of the total Miscellaneous Liabilities as of December 2012 and 2011, P11.340 million and P12.223 million, respectively, represents payments made by several loan/lease accounts with request for restructuring or waiver of penalties. These accounts are temporarily booked as Miscellaneous Liabilities — Unapplied Payments pending evaluation and action on the respective requests of the concerned accounts.

The remaining balance of the Miscellaneous Liabilities account represents advance payment of clients and other parties for insurance and other expenses in compliance of the conditions of approval of their respective accounts.

21. EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the Corporation by the weighted average number of ordinary shares outstanding during the year.

The following reflects the basic earnings per share computations:

	2012	2011
Net Income (a)	145,591	126,634
Weighted Average Number of Shares (b)	48,555	48,555
Basic Earnings Per Share (a/b)	3.00	2.61

There were no treasury shares and outstanding dilutive potential common shares as of December 31, 2012 and 2011.

22. EQUITY

The Corporation calculates its capital as equity as shown in the balance sheet.

22.1 Capital Stock

Details of Capital Stock at December 31, 2012 and 2011 follow:

			2012	2011
Authorized Common Stocks, P10.00	par, 50,000,00	0 shares	500,000	500,000

At December 31, 2012	48,555	485,553	113,970	599,523

22.2 Dividend Declaration

In compliance with Republic Act No. 7656 requiring the declaration of dividends by Government-Owned and Controlled Corporations, LBP Leasing Corporation is required to declare and remit at least fifty percent (50%) of its annual Net Income After Tax as dividends.

During its April 3, 2012 meeting, the Board of Directors of LBP Leasing Corporation approved the declaration of Year 2011 cash dividends amounting to P63.607 million or P1.31 per share on the 48.555 million common stocks held by all stockholders of record as of December 31, 2011.

For the Year 2012, the Board of Directors of LBP Leasing Corporation, in its February 21, 2013 meeting, approved the declaration of cash dividends amounting to P94.683 million or P1.95 per share on the 48.555 million common stocks held by all stockholders of record as of December 31, 2012. The payment of the cash dividends will reduce the Corporation's Retained Earnings from P618.381 million to P523.698 million.

22.3 Retained Earnings

Popularia D. I	2012	2011
Beginning Balance	536,397	464,145
Income for the year	1 45,591	126,634
Declaration of Dividends	(63,607)	(54,382)
Ending Balance	618,381	536,397

22.4 Accumulated Other Comprehensive Losses

This account represents the fair value changes on available for sale investments with accumulated market losses of P5.825 million as of December 31, 2012 and 2011.

23. LEASES

The Corporation enters into finance lease agreements over various assets. An analysis of the Corporation finance lease receivables is shown in Note 8.

The Corporation also entered into operating leases on certain motor vehicles. These operating leases are from periods ranging from 6 to 60 months with equal monthly rental payments as set forth in the lease agreement. Operating lease income presented under Other Income in the Corporation's statements of comprehensive income for the years ended December 31, 2012 and 2011 amounted to P48.572 million and P49.799 million, respectively. The carrying amount of lease deposits payable to lessee amounted to P10.047 million and P9.945 million as of December 31, 2012 and 2011.

Operating lease commitments

Future minimum rental receivables under non-cancelable operating leases as of December 31, 2012 and 2011 are as follows:

	2012	2011
Due within 1 year	874	1,706
After 1 year up to Maturity	370	648
	1,244	2,354

Chauffeuring services related to lease on vehicles are presented under the Direct Expense – Security, Messengerial, Janitorial and Contractual Services on the Statement of Comprehensive Income. Details of which are as follows:

	2012	2011
Finance Lease	87,769	88,480
Operating Lease		23,384
	108,478	111,864

24. OTHER INCOME

This account consists of:

0:1	2012	2011
Gain from Sale/Derecognition of Non-Financial Assets	4,656	(1,332)
Income from Assets Acquired	611	894
Service Charge	249	138

Miscellaneous Income	4,019	4,844
	9,511	4,912

25. EMPLOYEE BENEFITS

25.1 Compensation and Fringe Benefit

Expenses recognized for salaries and employee benefits are presented below:

	2012	2011
Salaries and wages	13,545	11,902
Bonuses	6,069	6,932
Retirement	1,576	1,519
Social security costs	718	631
Other benefits	2,222	1,649
Total Employees Benefits	24,130	22,633
Directors' Remuneration	2,804	1,729
Total Compensation and Fringe benefits	26,934	24,362

Employee benefits include annual salaries, paid sick leave, profit sharing and bonuses, and other non-monetary benefits. Total accrued compensated absences as at December 31, 2012 and 2011 are P3.376 million and P3.156 million, respectively.

25.2 Retirement Benefits

The Corporation has a non-contributory defined benefit retirement plan covering substantially all its employees. On July 27, 2010, the LLC Board of Directors approved LLC's proposal to adopt the proposed Retirement Benefit Plan of LBP Subsidiaries per Board Resolution No. 10-112.

The opening of the LLC Employees' Retirement Trust Fund Account with the LBP Trust Banking Group (TBG) with an initial deposit of P 6,751,150.86 was approved by the LLC Board of Directors on June 5, 2012 per Board Resolution No. 12-080. A Trust Agreement was made and entered into by LLC and LBP TBG on November 28, 2012.

Among the significant provisions of the Trust Agreement are the following:

- a. The Trustor (LLC) shall deliver and pay to the Trustee such sums representing the annual contributions of the Trustor as provided in the Plan, starting with the contributions for the current year [2012] in the amount of Six Million Seven Hundred Fifty One Thousand One Hundred Fifty Pesos and 86 Centavos (P6,751,150.86) Philippine Currency.
- b. The Trustor waives all its rights and interests to the money or properties which are and will be paid or transferred to the Fund, to the extent required to provide the benefits payable pursuant to the Plan.
- c. The Trustee shall administer the Fund to be held in trust for the purpose stated in and subject to all the terms and conditions of this Agreement as well as the Plan, which shall be deemed part of this Agreement. It shall invest and reinvest the Fund, together with all increments and proceeds in fixed-income government securities.
- d. The Trustee has the right and power to cause any asset acquired from the investment/re-investment of the fund to be held, registered and issued in its own name as Trustee or in the name of its nominee, provided, that the books and records of the Trustee shall at all times show that all such properties are part of the Fund. It shall open and maintain savings and/or checking account as may be determined necessary from time to time in the performance of the trust and the authority herein conferred to the Trustee as well as pay all costs, fees, charges and such other expenses connected with the investments, administration, preservation and maintenance of the Fund and to charge the same to the Fund.
- e. The Trustee shall exercise any right or privileges pertaining to the bonds, securities or other properties held in trust. It shall open a savings account with its own commercial banking sector, for and in the name of the Fund wherein all funds awaiting investments and those received as contribution or by way of income or earnings from the investment/re-investments of the fund may be deposited temporarily. The Trustee shall execute and deliver any and all documents and to perform any act which may be deemed necessary or proper to carry out the powers granted.
- f. In the management of the Fund, the Trustee shall pay to the members or the beneficiaries the benefits under the Plan upon written advice of the Trustor. It shall keep and maintain books of accounts and/or records of the management and operations of the fund, which the Trustor or its authorized representative may inspect from time to time during office hours. It shall, at the end of every calendar quarter, submit the financial reports, i.e. Balance sheet, Statement of Income and Expenses, Schedule of Investments, Investment Activity Report statements and such other reports as may be requested by the Trustor. Such reports shall be deemed conclusive should the Trustor fail to object thereto in writing within thirty (30) days from receipt thereof. The Trustor shall administer the funds held in trust with such degree of skill and care as a prudent man would exercise in the conduct of an enterprise of like character and with similar aims. It shall secure the Tax Exemption Certificate from the Bureau of Internal Revenue so that the Plan may be entitled to tax exemption benefits as provided by law.

- g. For its services, the Trustee shall be entitled to a fee equivalent to 0.5% per annum of the average total assets of the Fund, computed daily and collected after the end of each calendar quarter, subject to a minimum of Php 10,000.00 per year. The Trustee is hereby authorized to debit its fee from the Fund. The above fee is quoted with the understanding that the same may be reviewed at the request of either party and adjusted in a mutually satisfactory basis.
- h. Except for fraud, bad faith or gross negligence, the Trustee shall not be liable for any loss or depreciation in the value of the Fund resulting from the investments or re-investments thereof as authorized herein, or from the performance of any act in accordance with the provision of this Agreement. This Agreement does not guarantee a yield, return or income on the investments/re-investments of the fund as the same can fall as well as rise depending on prevailing market conditions and is not covered by the Philippine Deposit Insurance Corporation (PDIC). Losses, if any, shall be for the account of the Trustor.
- i. This Agreement shall remain in full force and effect until the termination of the Plan, unless sooner terminated by either party hereto by giving a thirty (30) day advance written notice to the other.

The Retirement Fund is treated as off books in compliance with PAS 26 – Accounting and Reporting by Retirement Benefit Plan. The trust fund will be monitored by the LLC Corporate Services Group (CSG) and will be checked periodically by the LLC Accountant.

The LBP-TBG, as part of its services, shall handle the selection and engagement of the Actuarial Service Company that will undertake the actuarial valuation for LLC. The actuarial valuation results are expected to come out within the year 2013.

For the year 2012, LLC has recognized Retirement Obligations in the statement of financial position the amount of P1.576 million representing additional retirement obligations based on Article V of the LBP Subsidiaries Retirement Benefit Plan which defines the percentage of entitlement of incumbents to retirement benefits. Adjustments thereon and on the Retirement Trust Fund shall be made upon receipt of the actuarial valuation.

26. Taxes and Licenses

This account consists of:

	2012	2011
Gross Receipts Tax	21,504	19,457
Business License	2,683	900
Real Estate Tax	439	288
Annual Fees (SEC)	13	12
Registration of Vehicles	13	16
Barangay Clearance	12	12
Annual Non-Vat Registration Fee	1	1
	24,665	20,686

a. Relevant Tax Regulations

LBP Leasing Corporation is a Non-VAT entity under Philippine tax laws per Revenue Regulations (RR) 9-2004. LBP Lease is subject to percentage and other taxes (presented as Taxes and licenses in the statement of income and expense) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and documentary stamp tax. LBP Lease was also designated by the Bureau of Internal Revenue (BIR) as withholding tax agent under Revenue Regulations (RR) No. 17-2003 and RR 12-94, as amended.

In compliance, LBP Lease pays the corresponding GRT on all items treated as gross income, and fringe benefit tax (FBT) on the benefits provided to its officers in accordance with the tax law and revenue regulation prescribing FBT. LBP Lease withheld corresponding taxes on payments of compensation of employees, fees to directors and cost or purchase price to contractors and suppliers of goods.

b. Supplementary Information Required by the Bureau of Internal Revenue

Bureau of Internal Revenue (BIR) requires certain information on taxes, duties and license fees paid or accrued during the taxable year to be disclosed as part of the notes to financial statements. The supplementary information is, however, not a required part of the basic financial statements prepared in accordance with Philippine Financial Reporting Standards; it is neither a required disclosure under the Philippine Securities and Exchange Commission rules and regulations covering the form and content of financial statements under Securities Regulation Code Rule 68.

The amounts relating to such information may not necessarily be the same with those amounts disclosed in the financial statements which were prepared in accordance with PFRSs. The following is the tax information required for the taxable year ended December 31, 2012:

(ii) Based on Revenue Regulation (RR) 15-2010

The Documentary Stamp Tax (DST) paid/accrued on the following transactions are:

	2	012	201	
Transaction	Amount	DST thereon	Amount	DST thereon

28. Income Tax

The major components of income tax expense for the years ended December 31, 2012 and 2011 are:

	2012	2011
Current Income Tax Expense	52,907	48,990
Deferred Tax Expense	569	27
Income Tax Benefit	(12,737)	(17,496)
	40,739	31,521

Under Philippine tax laws, the Corporation is subject to percentage and other taxes as well as income taxes. Percentage and other taxes paid consist of gross receipts tax and documentary stamp tax.

Income taxes include corporate income tax and final taxes paid at the rate of 20.00%, which is a final withholding tax on gross interest income from deposits with banks. In addition, current tax regulations define expenses to be classified as entertainment, amusement and recreation (EAR) and set a limit for the amount that is deductible for tax purposes. Under the regulation, EAR expense allowed as a deductible expense for

the Corporation, a service Corporation is limited to the actual EAR paid or incurred but not to exceed 1.00% of net revenue (i.e. gross revenue less discounts). EAR of the Corporation charged against current operations, included under "Other Expenses" in the statement of comprehensive income amounted to P0.201 million and P0.127 million in 2012 and 2011, respectively.

Current tax regulations provide that the Regular Corporate Income Tax (RCIT) rate shall be 30.00% and interest allowed as a deductible expense shall be reduced by an amount of 33.00% of interest income subjected to final tax. It also provides for the change in GRT rate from 5.00% to 7.00% on non-lending income.

The regulations also provide for MCIT of 2.00% on modified gross income. Any excess of the MCIT over the RCIT is deferred and can be used as a tax credit against future income tax liability for the next three years. In addition, the NOLCO is allowed as deduction from taxable income in the next three years from the year of inception.

Minimum Corporate Income Tax (MCIT) computed at 2.00% of gross profit amounted to P5.869 million and P5.443 million in 2012 and 2011, respectively.

Republic Act No. 9504, An Act Amending National Internal Revenue Code, provides that starting July 1, 2008, the optional standard deduction (OSD) equivalent to 40.00% of gross income may be claimed as an alternative deduction in computing for the RCIT.

The Corporation has opted to use the Optional Standard Deduction (OSD). The presentation of the Income Statement reflects the "Gross Income" which was the basis in computing the OSD to arrive at the taxable income. Direct expenses incurred to provide the services as provided in Sec.4 of RA 16-2008 was presented as a deduction from the gross revenue.

Deferred income tax asset

Deferred income tax asset at December 31 relates to the following:

	2012	2011
Allowance for Probable Loss	61,765	50,016
Estimated Retirement Fund	782	363
	62,547	50,379

29. RELATED PARTY DISCLOSURES

In the ordinary course of business, the Corporation enters into transactions with its Parent Corporation, Land Bank of the Philippines. Under the Corporation policy, these transactions are made substantially on the same terms as with other individuals and businesses of comparable risks.

29.1 The total amount of transactions which have been entered into with related parties for the relevant financial year is as follows:

Accounts	Related Party	2012	2011
Cash and Cash Equivalents Accounts Receivables	Parent Company Parent Company	36,806 48,007	16,362 22,751
Net Investment on Lease Contract Receivable Bills Payable	Parent Company Parent Company	116,341 1,266,885	133,229 831,273
Deposit on Lease Contracts Accounts Payable Accrued Interest Payable	Parent Company Parent Company	46,684	46,259 3
Miscellaneous Liabilities	Parent Company Parent Company	4,122 888 1,519,733	2,855 288 1,053,020

29.2 The income and expenses in respect of related parties included in the financial statements are as follows:

Accounts	Related Party	2012	2011
Financial Lease Income	Parent Company	138,621	138,88
Operating Lease Income	Parent Company	48,572	49,799
Income from Deposits in Bank	Parent Company	212	54
Interest and Financing Charges	Parent Company	68,441	50,646
		255,846	239,382

g. Bills payable and Interest and Financing Charges

Interest rates on borrowings to related party ranges from 4.0% to 8.0%. The loans are partially secured by assignment of receivables with terms of maturity ranging from 90 days to 5 years.

h. Financial Lease Income

The Corporation is leasing motor vehicles to its Parent Corporation for a period of five years.

i. Operating Lease Income

The Corporation is leasing motor vehicles to its Parent Corporation for a period of three years with renewal option included in the contracts.

j. Interest and Financing Charges

Interest rates on borrowings to related party ranges from 4.0% to 8.0%.

k. Other Related Party Transactions

Other related party transactions conducted in the normal course of business include regular banking transactions, borrowings and sharing of certain operating expenses.

29.3 Compensation of Key Management

Compensation of key management personnel included under "Compensation and fringe benefits" in the statement of income follows:

	2012	2011
Key management compensation		
Salaries and other benefits	8.176	5.672
Post-employment benefits	3,722	3,099
Actual Director's remuneration	2,804	1,650
	14,702	10,421

The LBP Leasing Corporation Board of Directors is composed of 11 members, including the chairperson. Of the ten (10) Board members, six are interlocking directors, being officers or directors of the Parent Bank, Land Bank of the Philippines.

29.4 LBP Trust Banking Group as LLC Employees' Retirement Fund Trustee

A Trust Agreement was made and entered into between LBP Leasing Corporation (LLC) and Land Bank of the Philippines – Trust Banking Group (LBP-TBG) on November 28, 2012, thereby appointing the latter as the Trustee of the LLC Employees' Retirement Trust Fund.

30. FINANCIAL PERFORMANCE

The following basic ratios measure the financial performance of the Corporation:

	2012	2011
Return on Average Assets	4.78	4.50
Return on Average Equity	12.44	11.60
Return on Investment	24.28	21.10
Debt to Equity	1.58:1	1.62:1
Solvency	1.63:1	1.62:1

31. CONTINGENCIES

Pending Case on the Transfer of Ownership of Property

A case against LBP Lease for Preliminary Injunction is now pending before the Regional Trial Court of Manila. This stems from the company's purchase of a property for the account of a lease-to-own client. After the purchase however, but prior to the transfer,

the owner of the adjoining lot claimed that the building constructed on the purchased property in fact encroached on their lot. The owner sued the former owner, LBP Lease and the DOLE as the occupant of the purchased property, claiming damages among others. The plaintiff likewise applied and was granted an Injunctive Order. Hence, LBP Lease is unable to transfer the title of the property to the company's name during the pendency of the action.

As to the liability, it is most probable that LBP Lease will not be principally liable because it has no notice of the alleged encroachment if indeed there is. The principal party who will be held liable would be the seller as LBP Lease is a buyer in good faith. However, because of the delay in the transfer of ownership, LBP Lease is unable to use the property as collateral.

In addition to those already mentioned in the preceding notes, in the ordinary course of business, the Corporation incurs contingent liabilities and commitments arising from normal business transactions which are not reflected in the accompanying financial statements. As of December 31, 2012, management does not anticipate significant losses from these contingencies and commitments that would adversely affect the Corporation's financial position and results of operations.

Status of Account where there was Double Financing on Leased Equipment

In regard one account where there was double financing of the equipment under financial lease with LLC, appropriate legal actions have been taken by LLC. To secure the other remaining equipment which are possible sources of recovery of the exposure of LLC and the other affected leasing companies, arrangements are being made by the concerned leasing companies, acting as a consortium, for the transfer of the equipment to a more secure location.

In the event that the request for the transfer of the equipment is denied, a Replevin case will be immediately filed to regain custody of the equipment through a court order.
